CORPORATE SUMMARY & COMPLIANCE OVERVIEW

KIKI'S Industrial Chemicals Ltd is a licensed Kenyan chemical merchant wholesaler based at SMK Business Center on Enterprise Road, Industrial Area, Nairobi. Incorporated as **KIKI'S CHEM LIMITED** under the Companies Act 2015 (Certificate No. **PVT-27U5X7P2**) and operating under Nairobi County Unified Business Permit **UBP220108** with Kenya Revenue Authority PIN **P052189989C**, we maintain continuous inventory of vital process raw materials, water treatment chemicals, solvents, detergent builders, and food additives. Every consignment is supported by genuine batch Certificates of Analysis (COA), Technical Data Sheets (TDS), and global GHS Safety Data Sheets (SDS).

CENTRAL DISTRIBUTION HUB**SMK Business Center, Enterprise Road**

Industrial Area, Nairobi, Kenya

Same-day collection and express vehicle dispatch to manufacturing zones across Nairobi and surrounding industrial corridors.

DIRECT COMMERCIAL CONTACTS**Telephone & WhatsApp: +254 713 002 961**

Secondary Line: +254 713 885 105

OUR PURPOSE

Built to Eliminate Friction in African Chemical Sourcing

For factory owners, plant chemists, and municipal operators in Kenya, chemical procurement has rarely been simple. It is an operational discipline where small mistakes carry enormous consequences.

Common Sourcing Bottlenecks

- **Unpredictable Port Lead Times:** Factory lines stall while raw materials wait weeks for customs clearance at Mombasa.
- **Opaque Chemical Grades:** Receiving technical-grade acids or alkalis when food-grade or BP/USP formulation was strictly required.
- **Missing Batch Documentation:** Batches delivered without Certificates of Analysis, leaving QA managers unable to sign off on production.
- **Rigid Minimum Order Volumes:** Multinational importers insisting on full 20-ton containers, draining operating capital for growing local processors.

The KIKI'S Operational Answer

- **Immediate Nairobi Stock:** Buffer stock of vital industrial chemicals held ready for collection on Enterprise Road.
- **Strict Grade Distinction:** Absolute transparency between Technical, Food, BP/USP, and Water Treatment specifications.
- **Guaranteed Paperwork:** Batch-specific COA, TDS, and GHS-compliant SDS supplied with every single delivery.
- **Flexible Packaging:** Available in 25kg bags, 25L jerrycans, 200L drums, and 1,000L IBC totes to match production cash flow.

OUR OPERATING PHILOSOPHY

Specification Certainty, Operational Honesty

KIKI'S was founded on a simple, grounded premise: that Kenya's manufacturing growth requires honest, responsive, and technically competent supply partners on the ground.

When a soap manufacturer in Eldoret orders caustic soda pearls, or a municipal water utility in Nakuru requires aluminium sulphate for emergency clarification, they cannot afford guesswork. They need to know the exact assay, the verified bulk density, the package integrity, and the exact hour the freight truck will arrive at their gate.

By establishing our distribution footprint directly along the Enterprise Road industrial corridor, we provide Nairobi and regional East African processors with a reliable supply anchor. Whether serving an established beverage bottling line or an ambitious SME producing liquid detergents, we treat every client with the same technical diligence.

STATUTORY COMPLIANCE

Official Corporate Identity & Licensing Baseline

Corporate procurement committees, internal audit teams, and tender boards require verifiable statutory credentials before onboarding raw material suppliers. Below is the verified legal and regulatory standing of KIKI'S Industrial Chemicals:

Statutory Parameter	Verified Official Record	Regulatory Authority / Legal Basis
Legal Incorporated Name	KIKI'S CHEM LIMITED	Registrar of Companies, Republic of Kenya
Certificate of Incorporation	PVT-27U5X7P2	Companies Act, 2015 (Incorporated 30 Jan 2023)
Operating / Trade Name	KIKI'S INDUSTRIAL CHEMICALS LTD	Nairobi City County Trade Licensing
Unified Business Permit	UBP220108	Nairobi City County (Valid to 05 Oct 2026)
Kenya Revenue Authority PIN	P052189989C	Kenya Revenue Authority (KRA Tax Registered)
Electronic Tax Invoicing	E-TIMS Compliant Active Electronic Invoicing	KRA E-TIMS Validated Fiscal Invoicing
Business Activity Code	Code 405: Other Chemical and Allied Products Merchant Wholesalers	Nairobi County Commercial Activity Registry
Registered Administrative Premises	Unit 1, Ground Floor, Plot 209/8568, Rangwe Road, Viwandani Ward, Makadara Sub-County, Nairobi	Registered Corporate Head Office
Commercial Distribution Warehouse	SMK Business Center, Enterprise Road, Industrial Area, Nairobi	Central Warehousing & Vehicle Dispatch Hub
Operational Facility Footprint	50 to 300 sq.m warehousing and dispatch depot	Medium Merchant Wholesaler classification
Staffing & Technical Personnel	3 to 5 commercial, warehouse, and technical staff	Nairobi City County operational baseline
Primary Geographic Markets	Kenya (47 Counties) • Uganda, Tanzania, Rwanda, DR Congo	Domestic supply & EAC cross-border export

E-TIMS INVOICING COMPLIANCE • KRA PIN: P052189989C

All commercial transactions, proforma quotes, and dispatch orders are processed through the Kenya Revenue Authority (KRA) electronic Tax Invoice Management System (E-TIMS). Corporate buyers receive valid fiscal invoices with QR codes for seamless VAT reconciliation and corporate tax deduction.

ENTERPRISE ROAD LOCATION ADVANTAGE

Our primary stock is situated along Enterprise Road in Viwandani/Makadara, the central industrial zone of Nairobi. This strategic location enables prompt vehicle dispatch to Baba Dogo, Athi River, Ruaraka, and direct access to the Mombasa Road logistics artery.

OFFICIAL REGULATORY DOCUMENTATION

Verified Incorporation & County Business Permit Exhibits

For vendor onboarding, tender pre-qualification, and procurement audit files, high-resolution scans of our Certificate of Incorporation and Nairobi City County Unified Business Permit are presented below:

CATEGORY 01

Water Treatment & Effluent Clarification Chemicals

Engineered for municipal potable water treatment, commercial clarification, boiler feedwater conditioning, and industrial wastewater treatment (ETP/STP) across Kenya and East Africa.

Chemical Product	Standard Assay	Physical Form	Packaging	Key Applications
Aluminium Sulphate	17% Al ₂ O ₃ Min	Granular / Kibbled	50kg Bags	Municipal drinking water clarification, paper sizing
Polyaluminium Chloride (PAC)	30% Al ₂ O ₃ Min	Yellow Powder	25kg Bags	High-turbidity water coagulant, industrial effluent treatment
Calcium Hypochlorite	65% - 70% Chlorine	Granular	45kg / 50kg Drums	Disinfection, borehole sanitisation, algae control
Ferrous Sulphate Heptahydrate	19.5% - 20% Fe	Crystalline Green	25kg Bags	Heavy metal precipitation, chromium reduction, odour control

CATEGORY 02

Detergent, Soap & Commercial Cleaning Raw Materials

Primary surfactants, alkaline builders, and processing aids for soap manufacturers, powder detergent extruders, and institutional cleaning chemical compounders.

Chemical Product	Standard Assay	Physical Form	Packaging	Key Applications
Caustic Soda (Sodium Hydroxide)	99% Purity Min	Flakes / Pearls	25kg Poly Bags	Saponification, CIP bottle washing, drain cleaners, drain opener
LABSA (Sulphonic Acid)	96% Active Min	Brown Viscous Liquid	210kg Drums / IBC	Primary anionic surfactant for liquid detergents and powders
SLES (Sodium Lauryl Ether Sulphate)	70% Active Paste	Translucent Gel	170kg / 220kg Drums	High-foaming surfactant for hand soaps, shampoos, detergents
Sodium Metasilicate Pentahydrate	28% SiO ₂ / 29% Na ₂ O	White Granules	25kg Bags	Alkaline cleaning builder, corrosion inhibition, degreasing

CATEGORY 03

Food, Beverage & Pharmaceutical Additives

Food chemicals compliant with Kenya Bureau of Standards (KEBS) and Codex Alimentarius guidelines for beverage bottling, confectionery, dairy, and pharmaceuticals.

Chemical Product	Standard Assay	Grade & Standard	Packaging	Key Applications
Citric Acid Anhydrous	99.5% - 100.5%	BP / USP / Food Grade	25kg Bags	Beverage acidulant, fruit processing preservative, flavour enhancer
Dextrose Monohydrate	99.5% Min	FCC / Food Grade	25kg Bags	Sweetening agent, baking fermentation, oral rehydration salts
Sodium Benzoate	99.0% Min	BP / Food Grade Granular	25kg Bags	Antimicrobial preservative in carbonated juices and sauces
Refined Glycerine	99.5% Min	BP / Pharma Grade	250kg HDPE Drums	Humectant in cosmetics, syrups, food moistening, excipients

CATEGORY 04

Industrial Solvents & Intermediates

High-purity solvents for chemical synthesis, printing ink formulations, flexographic printing, automotive degreasing, and industrial extraction.

Solvent Name	Assay / Purity	Packaging	Commercial Utility
Industrial Ethanol	96% & 99.9% Denatured	200L Steel Drums / Bulk	Sanitiser formulation, industrial ink thinning, extraction medium
Acetone Technical	99.5% Min Purity	160kg Steel Drums	Fibreglass resin clean-up, precision vapor degreasing, paint stripping
Monoethylene Glycol (MEG)	99.8% Min Purity	225kg Steel Drums	Automotive radiator coolant formulation, polyester resin production
Isopropyl Alcohol (IPA)	99.9% Pure Electronic	160kg Drums / 20L Jerry	Electronics circuit cleaning, surface disinfection, printing founts

CATEGORIES 05 & 06

Coatings, Agrochemicals, Mining & Processing Auxiliaries

Specialised mineral salts, pigments, and process reagents serving heavy industry, export agriculture, and regional mining operations.

Chemical Line	Standard Grade	Packaging	Target Industrial Application
Titanium Dioxide Rutile	R-996 / CR-828 (93% TiO ₂)	25kg Paper Bags	Primary white pigment for paints, plastics, inks, masterbatches
Talc Powder Industrial	325 - 1250 Mesh (White)	25kg Bags	Extender pigment in architectural coatings, plastics filler, rubber
Nitrocellulose (NC) Solutions	RS 1/2, RS 1/4 (65% in IPA)	200L Steel Drums	Wood lacquers, flexographic printing inks, automotive refinish
Copper Sulphate Pentahydrate	24.5% - 25% Cu (Feed/Tech)	25kg Bags	Agrochemical fungicide, animal nutrition, copper electroplating
Phosphoric Acid Technical	85% Food / Technical Grade	35kg Jerrycans / 1.6T IBC	Agricultural fertigation, rust conversion, beverage acidification
Oxalic Acid 99.6%	99.6% Dihydrate Crystals	25kg Bags	Rare earth precipitation, metal rust removal, timber bleaching
Sodium Sulphide Flakes	60% Min Fe 30ppm	25kg Bags	Mineral flotation depressant, tannery hide dehairing reagent
Formic Acid 85%	85% Commercial Grade	35kg Jerrycans / 250kg Drum	Leather tanning deliming/pickling, latex coagulation, textile dyeing

INDUSTRIAL ALIGNMENT

Chemical Raw Materials for Core Manufacturing Sectors

KIKI'S structures its stocking programs around the continuous operating requirements of six major industrial sectors in Kenya and the East African Community:

01. WATER SERVICE BOARDS & UTILITIES

Potable Water & Effluent Clarification

Supplying municipal water companies (such as NCWSC, RUWASCO, and ELDOWAS), commercial bottlers, and textile/leather effluent plants with bulk coagulants (Alum, PAC), disinfection chlorine (65-70%), and pH corrective chemicals.

02. FMCG, SOAP & DETERGENT COMPOUNDERS

Cleaning Formulation & Saponification

Direct supply of prime caustic soda flakes and pearls, linear alkylbenzene sulphonate (LABSA 96%), sodium lauryl ether sulphate (SLES 70%), and builder salts for toilet soap extruders, laundry bar makers, and commercial disinfectant blenders.

03. FOOD, BEVERAGE, DAIRY & BOTTLING PLANTS

Food-Grade Processing & Sanitation

Guaranteed food-grade and BP/USP compliant citric acid, dextrose, sodium benzoate, glycerine, and food-grade caustic soda for clean-in-place (CIP) line sanitisation, carbonated beverage blending, and confectionery lines.

04. PAINT, RESIN, LACQUER & INKS FORMULATORS

Architectural & Industrial Coatings

Supplying coating manufacturers along Enterprise Road, Athi River, and Mombasa with rutile titanium dioxide, nitrocellulose solutions, micronised talc powder extenders, drying octoates, cellulose thickeners, and clean solvent thinners.

05. COMMERCIAL AGRICULTURE & FLORICULTURE

Greenhouse Fertigation & Crop Protection

High-purity soluble crop nutrition salts, copper sulphate pentahydrate for disease management, phosphoric acid for irrigation line descaling and pH conditioning, and micronutrients for export rose and vegetable growers in Naivasha and Mount Kenya.

06. MINING BENEFICIATION, METALLURGY & TANNERIES

Mineral Extraction & Beamhouse Operations

Supplying oxalic acid for rare earth precipitation, sodium sulphide flakes for mineral flotation and tannery dehairing, and formic acid for beamhouse deliming and pickling across Kenya, Tanzania, and Eastern DR Congo mining corridors.

OPERATIONAL QUALITY STANDARDS

Uncompromising Commitment to Safety & Quality Control

Industrial chemicals demand strict regulatory adherence, proper handling protocols, and uncompromising batch traceability. KIKI'S operates within the statutory requirements of the Republic of Kenya:

01. 16-SECTION GHS SAFETY DATA SHEETS

Comprehensive Hazard Disclosure

Every hazardous chemical line distributed by KIKI'S is accompanied by full 16-section Safety Data Sheets conforming to the Globally Harmonized System (GHS). These documents provide detailed guidance on toxicology, exposure limits, proper PPE, emergency firefighting, accidental spill containment, and first-aid measures.

02. CHEMICAL SEGREGATION & WAREHOUSING

Controlled Storage Protocols

Our Nairobi distribution warehouse enforces strict chemical segregation rules. Corrosive acids, strong alkalis, oxidising agents, and flammable solvents are maintained in segregated storage zones with proper ventilation, spill containment trays, and protective equipment.

03. BATCH TRACEABILITY & COA VERIFICATION

Direct Manufacturer Audits

We maintain digital lot records for all consignments. Certificates of Analysis (COA) provide verifiable batch numbers, production dates, expiry dates, and laboratory test results (assay, density, moisture, and impurities) cross-referenced against factory delivery notes.

04. SAFE COMMERCIAL TRANSPORT PROTOCOLS

Compliant Freight & Dispatch

Chemical shipments dispatched across Kenya and to border points (Malaba, Busia, Namanga) are loaded in accordance with commercial transport safety guidelines. Multi-wall bags are shrink-wrapped on heavy wooden pallets, and liquid drums are inspected for seal integrity before dispatch.

KENYA BUREAU OF STANDARDS (KEBS) ALIGNMENT

We assist our manufacturing clients in meeting national Kenya Bureau of Standards (KEBS) specifications. When sourcing raw materials for consumer-packaged goods (such as soaps, bottled water, cosmetics, and processed foods), we supply technical specification sheets confirming compliance with relevant East African and Kenyan standards (EAS/KS).

LOGISTICS NETWORK

Strategic Dispatch from the Heart of Nairobi

Operating from Nairobi Industrial Area provides KIKI'S with an unparalleled logistics advantage. Nairobi serves as the central freight clearinghouse for East Africa, connecting port imports from Mombasa directly to regional inland manufacturing hubs.

NAIROBI & METROPOLIS

Same-Day Express

Immediate warehouse pickup or rapid delivery to:

- Industrial Area & Viwandani
- Baba Dogo & Ruaraka
- Athi River & Kitengela
- Embakasi & Ruiru

Lead Time: Under 6 Hours

KENYA NATIONWIDE

47 Counties Reach

Scheduled freight and consolidated cargo to:

- Mombasa & Coastal manufacturing
- Nakuru & Rift Valley agriculture
- Kisumu & Lake Basin sugar/beverage
- Eldoret, Thika, Nyeri, Naivasha

Lead Time: 24 to 48 Hours

EAST AFRICA EXPORT

Cross-Border Trade

Cross-border export freight dispatched to:

- **Uganda:** Kampala, Jinja, Tororo
- **Tanzania:** Dar es Salaam, Arusha
- **Rwanda:** Kigali industrial zones
- **DR Congo:** Goma, Bukavu

Transit: 2 to 5 Business Days

REGIONAL TRADE CORRIDORS

East African Community (EAC) Export Support

Regional buyers frequently face local stockouts in Kampala, Jinja, or Dar es Salaam and rely on established Nairobi merchants to supply documented consignments. KIKI'S coordinates with licensed regional clearing agents to facilitate export transit:

Northern Logistics Corridor

Transit via Eldoret, Malaba, and Busia border posts connecting Nairobi directly to Uganda (Kampala, Jinja), extending across Katuna into Rwanda (Kigali) and Eastern DR Congo. Standard transit times average 24 to 48 hours to Kampala.

Central & Southern Corridor

Transit via Namanga and Holili border crossings connecting directly to Arusha, Moshi, and Dar es Salaam. We supply complete commercial documentation, including packing lists and export commercial invoices.

QUICK-REFERENCE SPECIFICATIONS

Top-20 High-Volume Chemical Stock Lines

Chemical Name	CAS Number	Standard Grade	Pack Format	Common Industry
Aluminium Sulphate	10043-01-3	17% Al ₂ O ₃ Granular	50kg Bags	Water Treatment, Paper
Polyaluminium Chloride (PAC)	1327-41-9	30% Powder Coagulant	25kg Bags	Municipal & Effluent Water
Calcium Hypochlorite	7778-54-3	65% - 70% Chlorine	45kg/50kg Drums	Sanitation, Water Bleach
Caustic Soda Flakes / Pearls	1310-73-2	99% Sodium Hydroxide	25kg Bags	Soaps, CIP, Metal Cleaning
LABSA 96%	27176-87-0	96% Sulphonic Acid	210kg Drum / IBC	Detergents, Liquid Soaps
SLES 70%	68585-34-2	70% Active Paste	170kg/220kg Drums	Shampoos, Handwash, Foam
Citric Acid Anhydrous	77-92-9	BP / USP Food Grade	25kg Bags	Beverage, Dairy, Pharma
Dextrose Monohydrate	5996-10-1	FCC Food Grade	25kg Bags	Food, Baking, Confectionery
Sodium Benzoate	532-32-1	BP / Food Grade	25kg Bags	Juice & Food Preservative
Refined Glycerine	56-81-5	99.5% BP / Pharma	250kg Drums	Cosmetics, Food, Pharma
Industrial Ethanol	64-17-5	96% & 99.9% Denatured	200L Steel Drums	Sanitisers, Solvents, Inks
Acetone Technical	67-64-1	99.5% Technical Pure	160kg Steel Drums	Resin Cleaning, Extraction
Monoethylene Glycol (MEG)	107-21-1	99.8% Technical	225kg Steel Drums	Radiator Coolant, Polymers
Isopropyl Alcohol (IPA)	67-63-0	99.9% Pure Electronic	160kg Drums / Jerry	Electronics, Sanitising, Inks
Titanium Dioxide Rutile	13463-67-7	R-996 / CR-828	25kg Paper Bags	Paint, Plastic Masterbatch
Talc Powder Industrial	14807-96-6	325 - 1250 Mesh	25kg Bags	Coatings Extender, Rubber
Copper Sulphate Pentahydrate	7758-99-8	24.5% - 25% Cu	25kg Bags	Agriculture, Feed, Mining
Phosphoric Acid 85%	7664-38-2	85% Food / Technical	35kg Jerry / IBC	Fertigation, Rust Removal
Oxalic Acid 99.6%	6153-56-6	99.6% Dihydrate	25kg Bags	Mining Flotation, Bleach
Sodium Sulphide Flakes	1313-82-2	60% Yellow Flakes	25kg Bags	Tanneries, Mining Flotation
